

Additional 1, 2, and 3 year Extended Warranty

The Extended Warranty from LulzBot extends your standard 1-year warranty by adding an additional one (1), two (2), or three (3) years of service and support. Up to four (4) years total coverage.

LulzBot customers may purchase an Extended Warranty at the time of original purchase or within thirty (30) days of applicable product purchase date. The Extended Warranty term begins on the day after the Limited Warranty term has expired. Any Extended Warranties will expire one (1), two (2), or three (3) years after the start date of the Extended Warranty.

The Extended Warranty does not cover any third-party products or components, or any standard maintenance as outlined in the Owner's Manual.

For additional information regarding the standard LulzBot 3D printer warranty, please refer to our standard warranty policy found at www.lulzbot.com/support.
